# A perfect space saving solution

If you want a washer and a dryer but you're short of space, this is the perfect solution. With the non-stop programme, our washer dryer can launder a half load of easy-care fabrics in just 90 minutes. With Siemens you do not have to think about the technology. We have taken care of it so you can be confident that each and every time you use your Siemens washer dryer you will get outstanding performance. At Siemens our aim is to take the chore out of laundry. We will give you the best results and save you time, so you can get on with the more important things in life.

WDI1442EU

<b>Product Description</b>	<b>INTEGRATED ELECTRONIC WASHER DRYER 1400 RPM</b>
<b>Programmes</b>	Maximum washing load 5kg – Drying load 2.5kg Non stop washing and drying program for 2.5 kg User-friendly operation with range of programs in text and symbol LCD Display for programme status: Time remaining display and time delay (1-24hrs), Spin Speed, Drying Childproof lock 30cm porthole and 180° door opening angle
<b>Washing Machines</b>	Spin speed: 600 – 1400rpm Push Buttons: Start, Reduced time, Delay timer, Drying, Spin Speed Special Programmes: Drain, Spin, Rinse, Easy Care, Wool Fully Electronic controlled, very quiet Automatic load and foam detection feature Aqua Spar system for faster water penetration and more efficient rinsing Aqua Stop
<b>Dryer</b>	Time-controlled programmes Delicate drying and Normal drying
<b>Product Specs</b>	Capacity: 5kg / 2.5kg drying Consumption Rates: 49l / 0.95kWh / 135min Rating: 2300W Unit dimensions: (H x W x D): 82.0 x 59.5 x 58.4 cm

# World first – VarioSoft drum. Highly efficient, gentle and time saving.

Best wash results, shorter wash time and best treatment.

Asymmetric paddles and rain drop drum pattern for powerful and gentle laundry care.

Largest drum in under-counter dimensions on the market

Anti-Stain System

## World first – Anti-stain System. The correct treatment for every stain.

Grass, tomato, red wine. Stains are not the same. Now, for the first time a washing machine can treat stains with hot or cold water and longer or shorter washing cycles

# It's the little technical things that make Siemens laundry appliances exceptional.

**Take advantage of the fastest wash programme on the market**  
Superfast washing in record time! Fast washing of 2 kg of washing in only 15 minutes – with main wash, rinsing and spinning.

**Treating delicate garments with the care they deserve**  
A particularly gentle wash programme that can be trusted with silks, delicate viscose and synthetic items without worry. Check the care label first to ensure that the silk is machine washable.

**The special wash for modern sportswear textiles**  
Chemical fibres and high tech materials have conquered the fashion world and revolutionised sportswear. With the sportswear programme Logixx 7 Sensitive offers optimum care for these sensitive fabrics that, for the most part, must be washed at low temperatures and gently spun.

- The optimum, gentle wash for modern micro fibres and specially for sportswear.
- Low wash temperatures, may be selected from "cold" to 40°C.
- Low spin speeds, as synthetics absorb little water – and short spinning at the end reduces creasing.

**Rinse / freshen up**  
A light wash without detergent that takes only 20 minutes and reduces energy use.

**Dark wash**  
Specifically designed for dark clothes. This new programme ensures that no powdery deposits can be found after washing. Available in a range of temperatures, this programme uses reduced spin during the rinse process and final spin to avoid formation of creases, as well as added rinsing to wash out any detergent residue.

**AquaSpa wash system**  
A wash and shower system for optimum washing results.

**Gentle wash actions and targeted spinning**  
The woollens hand wash programme is tailored for the optimum treatment of woollens which runs at only 27 rpm with a soft wash action and special spin phase.

**Automatically perfect, economical washing**  
The automatic load adjustment function assures during the wash process that only the amount of energy and water required for the respective load and no more is used – so that when the machine washes a 2 kg load only the electricity and water required for the 2 kg are used.

**Convenient: dialogue with TouchControl buttons**  
For every programme selected, the dialogue display suggest the best temperature to spin speed ratio. This ratio may be changed individually according to wash instructions or one's own experience.

WOOLMARK

## Woolmark

Woolmark guarantees fibre content and provides quality specifications

## Wool basket – an innovative idea for drying wool

The woollens are dried flat, don't rotate in the drum and, more importantly, don't touch the sides which can become hot. The heat is produced slowly and kept at a precise level to help prevent shrinking and felting.

## Multiple water protection

All our machines are fitted with a supplt hose designed to withstand 7 times normal water pressure. They also have overflow prevention in the event of a malfunction of the machine.

## Stainless steel inner drum

Made from stainless steel, the inner drum is securely encased on the outer drum. The outer drum is made of polyinox. This special material does not rust and helps to maintain heat within the drum for efficient energy usage.

**5** YEAR  
GUARANTEE  
BUILT-IN APPLIANCES

**SIEMENS**

The world around us has become a myriad of change and confusion. We are constantly being cluttered with contradictions and complications that we somehow have to sort through on a daily basis, certain traits have however managed to stand out above the rest and rise out from the clutter.

Quality and style happen to be two of these most sought after traits in today's society. Traits that are truly worth searching for, worth waiting for, and unfortunately far too rare in a world that all too often manages to confuse what is really important to us in our daily lives.

It is this often-illusory search for true quality and style that leads us to something special. The Siemens 3 and 5 Year Guarantee is truly something special. The name Siemens epitomizes true quality and guarantees that you can move into the future with style and confidence.
